

# Quotation Contract

## Centralized Java Chat

---

### 1 Overview

We give here how the different points were given for the Exercise 1. We add 0.01 point if you sent us your exercise (such that the grand total is 1 point).

### 2 Running the Application (0.33)

Criteria:

- Compilation without error: 0.11
- Script to compile the program: 0.11
- Execution without error: 0.11

### 3 Design of the Application (0.33)

Criteria:

- Encapsulation of the different classes: 0.22
- Check of double usernames: 0.11

By encapsulation we mean that your program must deal only with interfaces and not with the implementation of these interfaces (i.e. neither use `instanceof` nor type casting).

### 4 Java Documentation (0.33)

Criteria:

- Complete documentation of the methods and classes: 0.33
- Partial documentation of the methods and classes: 0.17

By “complete” we mean that your documentation is useful for understanding your code and that all the classes and methods are commented.
